

My role. WordPress Elementor Designer

Project description.

Designed and developed a premium law firm landing page using WordPress and Elementor.

The project focuses on modern UI design, responsive layout, strong call-to-actions, trust-building sections, and professional branding for legal services businesses.

Features included:

- Responsive hero section
- Practice areas/service cards
- Trust & credibility sections
- Mobile Optimized Landing Page
- Premium footer layout
- Modern dark luxury UI styling
